## LOCATIONS eBook

Freely produced by Artworkz volunteers  
Special thanks to Allan Layton, James Cowell and Kathie Maynes

All GPS coordinates found in this eBook are provided as points of reference for computer mapping only and must never be relied upon for travel. All downloads, links, maps, photographs, illustrations and all information contained therein are provided in draft form and are produced by amateurs. It relies on community input for improvement.

Many locations in this eBook are dangerous to visit and should only be visited after talking with the relevant governing body and gaining independent gps data from a reliable source. Always ensure you have the appropriate level of skill for getting to each location and that you are dressed appropriately. Always avoid being in the bush during days of high fire danger, always let someone know of your travel plans and be aware of snakes and spiders at all times.

You can search this eBook using your pdf search feature

# INTRODUCTION

---

There is often some confusion in the local tourism industry as to who manages what assets and where those assets are located.

As there appears to be no comprehensive and free public listing of all local tourism features, we are attempting to build one with this eBook. Please recognise that errors and omissions will occur and always cross reference any information found herein with other more established resources, before travelling.

This free eBook resource is small enough to email and works on all computer platforms.

Please help us improve this resource

DISTRICT  
**SHIRE**

- Name:** Local Shires
- Responsibility:** The management and maintenance of all shire owned assets, including minor road systems and local signage.
- Fire:** No responsibility.
- Includes:** All parks and gardens in each township.

There are two local shires that operate locally (Shire of Murrindindi and Shire of Mansfield). These manage assets and responsibilities in such a manner that is financially viable. Amongst the hundreds of areas of responsibility, they also manage numerous tourism related assets, including: Parks and gardens, Day Visitor Areas, recreational areas, Visitor information Centres Community centres such as the Bonnie Doon Community Centre and tourism signage.

Shires need to work with other groups and organisations that have responsibilities in tourism within the shire's boundaries. This is required in order to ensure that these organisations maintain their assets in the shire. For instance, fishing spots along the Goulburn River need to be maintained and blackberries sprayed. As fishing is such a vital tourism industry for us, it is important that our shire works with Goulburn Valley Water to ensure blackberries are regularly sprayed.

# PARKS VICTORIA

<b>Name:</b>	<b>Parks Victoria (Parks)</b>
<b>Responsibility:</b>	Management of National Parks, marine parks, State parks, wilderness parks, metropolitan parks etc within Victoria.
<b>Fire:</b>	Operational fire management only. No fire management.
<b>Includes:</b>	Cathedral Sate Park. Lake Eildon National Park.

## History

Parks Victoria was first established 1996 as a statutory authority reporting directly to the Minister Environment and Climate Change. In 1998 the Parks Act 1998 came into being giving Parks Victoria responsibility for managing National Parks, reserves and other state owned lands.

## Responsibility

These lands include sites of indigenous cultural heritage and historic significance, 13 marine national parks, 11 marine sanctuaries, 45 National Parks, 3 wilderness parks, 26 State Parks, 30 Metropolitan parks and 60 other parks. Combined, the area of coverage amounts to around 17 percent of the State of Victoria or 10,000 square kilometres.

## Locally

Parks Victoria manage areas that include the Yarra Ranges National Park, Lake Eildon National Park and Kinglake National Park. The Upper Goulburn Heritage area is also managed by Parks Victoria and includes many areas that relate to our district's early mining days and the highly significant timber industry.

**Web:** [parkweb.vic.gov.au](http://parkweb.vic.gov.au)

DISTRICT

# DELWP

- Name:** Department of Environment, Land, Water & Planning (DELWP)
- Responsibility:** Management of all Crown owned land in Victoria.
- Fire:** Fire Management.
- Includes:** State Forests, alpine/bush huts located in our Forests.

## History

The *Department of Environment, Land, Water & Planning* (DELWP) was established 1 January 2015 by Labor Premier Daniel Andrews. Previously the department had been known as the *Department of Environment and Primary Industries* (DEPI) which had been established on April 2013. Before this the department was known as the *Department of Sustainability and Environment* (DSE) which was created by Liberal Premier Denis Naphine and prior to this the department was known as *Conservation and Natural Resources* (CNR). Initially it was known as *Natural Resources and Environment* (NRE).

## Responsibility

Focuses on protecting the environment while managing the needs of the many users that help make up Victoria. These user groups include 4x4 groups, bushwalkers, tourists, naturalists and conservationists, as well as commercial organisations such as loggers groups and VicForests operate within the Departments area of concern.

## Locally

Locally they manage forests such as the Rubicon State Forest, Big River State Forest, Marysville State Forest, Goulburn State Forest, Toolangi State Forest, Thomson State Forest, Black Range State Forest, Mount Strathbogie State Forest, the Strathbogie State Forest and the Murrindindi Scenic Reserve and the Paps Scenic Reserve. Dogs are generally allowed in State Forests, however they must under direct control and on leashes at camp grounds and Day Visitor Areas.

# GOULBURN-MURRAY WATER

- Name:** Goulburn-Murray Water (GMW)
- Responsibility:** Management of water in our main rivers, streams and lakes, including delivery of bulk supplies to rural authorities and all areas related to Houseboats and licensing on Lake Eildon.
- Fire:** No responsibility.
- Includes:** Goulburn, Acheron, Rubicon and Steavenson rivers.

## History

Goulburn-Murray Water is a statutory organisation responsible to the minister for water and operates under sections of the water Act 1989. They manage round 70 percent of the states water resources.

## Responsibility

Their service area is around 68,000 square kilometres. Within that boundary they have the authority to store, manage and deliver water across northern Victoria. They are responsible for the water within those rivers, streams and dams. Lake Eildon is one of 16 water storages managed by GMW and around 90 percent of the water released from Lake Eildon each year is diverted to farmers for irrigation. They are responsible for irrigation water and drainage services to over 24,000 services properties.

## Locally

Locally they manage the rivers, streams and lakes and are also responsible for all areas relating to houseboats on Lake Eildon (the only inland waterway in Victoria where houseboats are currently permitted to operate). They are currently the largest inland boating authority in the state of Victoria.

*Eildon: 19 High Street, Eildon, 3713, 5774 3900*

# GOULBURN VALLEY WATER

<b>Name:</b>	<b>Goulburn Valley Water (GVW)</b>
<b>Responsibility:</b>	Management of town water supplies and sewerage services.
<b>Fire:</b>	No responsibility.
<b>Includes:</b>	Alexandra Ponds and Numerous single purpose dams.

## History

Goulburn Valley Water is a statutory organisation responsible to the minister for water and operates under sections of the water Act 1989. They Provide town water and waste water to around 130,000 people in 54 townships. Infrastructure includes 37 water treatment plants, 26 wastewater management facilities, 322 pumping stations, 123 tanks and reservoirs and over 1,700 km of mains water piping.

## Responsibility

Goulburn Valley Water's area of responsibility reaches from just past Marysville (on the Melbourne side) right up to the Murray river.

## Locally

All water supplies are sourced directly from rivers and steam such as at Alexandra, or via storages owned by Goulburn Valley Water (such as at Marysville, Buxton and Mansfield). Within this area they are best known for being responsible for the purification of our water and the processing of human waste at ponds like the 'Alexandra Treatment Plant'.

DISTRICT

# GBCMA

- Name:** Goulburn Broken Catchment Management Authority (GBCMA)
- Responsibility:** Management of the banks of our rivers and streams. They do not manage fishing spots.
- Fire:** No responsibility.
- Includes:** Goulburn, Acheron, Rubicon and Steavenson rivers.

## History

The Goulburn Broken Catchment Management Authority (GBCMA) operates under the catchment and land protection act 1994.

## Responsibility

Responsible for the management of the banks of our rives, dams and streams. Everything they do is interwoven with the protection and the enhancing of our waterways.

## Locally

Locally GBCMA is involved in areas such as floodplain management, protection of the environment around our waterways, facilitating recreational fishing (in conjunction with other government departments) and sustainable irrigation management and practices. They undertake education programs aimed at creating better outcome for our waterways and work with the community on projects relating to the community and its waterways such as the current project to improve the Acheron River after repeated bush fires caused significant damage to its catchment area.

CBCMA are not land managers and therefore are not involved in the day to day management of tourism assets such as our local fishing spots.

**Web:** [www.gbcma.vic.gov.au](http://www.gbcma.vic.gov.au)  
**Email:** [reception@gbcma.vic.gov.au](mailto:reception@gbcma.vic.gov.au)  
**Phone:** 5822 7700  
**Address:** 168 Welsford Street, Shepparton, 3630

**B A C K T O T H E S T A R T**

# EPA

- Name:** Environmental Protection Authority (EPA)
- Responsibility:** Concerned with pollution on land, in the air and our waterways.
- Fire:** No responsibility.
- Includes:** Pollution in our rivers, stream and lakes. Noise pollution.

## History

The Environmental Protection Authority (EPA) was formed 1 July 1971 and is a Government Department with around 350 employees whose role it is to regulate pollution emissions, protect the Victorian environment and enforce compliance with the Environmental Protections Act 1970. Pollution is generally assessed and addressed in order of the biggest potential risk to the environment. The EPA is the second oldest Environmental regulatory agency in the world.

## Responsibility

The prevention and response to incidents of pollution and they have independent authority to make regulatory decisions under the Environmental Protections Act 1970. They do not have responsibility for specific areas or assets within the state of Victoria like other organisations, instead being responsible to protect the environment its self across all areas of the state.

## Locally

The EPA is responsible locally to protect the environment from all instances of pollution, to react to prevent pollution where possible, and regulate pollution emissions.

**Web:** [www.epa.vic.gov.au](http://www.epa.vic.gov.au)  
**Email:** [contact@epa.vic.gov.au](mailto:contact@epa.vic.gov.au)  
**Phone:** 1300 372 842  
**Address:** 200 Victoria Street, Carlton, 3053  
GPO Box 4395, Melbourne 3001

DISTRICT

# VICROADS

- Name:** VicRoads
- Responsibility:** Construction, maintenance and management of Victorian arterial roads. They are also responsible for licensing and vehicle registration.
- Fire:** No responsibility.
- Includes:** Roadside areas.

## History

The first road built in Victoria was in the early 1800s and was constructed by early European settlers on Phillip Island. The project was overseen by the Commander of the brig *HM Lady Nelson*. In 1851 Victoria was proclaimed a colony in its own right and in 1853 the first Victorian roads act was passed into legislation. Two organisations followed (a) The 'Central Roads Board' - responsible for all main roads and (b) the 'District Road Board' - responsible for local roads. In 1857 the system was replaced with the 'Board of Land and Works'. In 1897 the first motor vehicle was brought into Melbourne. In 1913 the 'Country Roads Board' (CRB) was established to keep up with the greater demands on the Victorian road network. In 1983 the 'Country Roads Board' became the 'Road Construction Authority' (RCA) and in 1989 the name was finally changed to the current 'VicRoads'.

## Responsibility

Locally VicRoads are responsible for arterial roads and roadside signage including outside of town boundaries and on main intersections within township boundaries, such as the huge crooked sign at the main inflection of the Goulburn valley highway and the Maroondah highway in Alexandra. They are also responsible for the conditions of our main roadways such as the Goulburn Valley Highway.

## Locally

Responsible for licensing, registration, management of arterial roads.
